2. "I'm assuming 48% alum but if that is not correct please add the concentration specifics to the addendum."

Answer:

Yes, Alum concentration is 48% and shall conform to the applicable portions of the American Water Works Association Standard B403-16 or current revision.

3. "If I may do so, I'd like to also add a request for the storage tank sizes for 50% NaOH & Alum."

Answer:

NaOH=2 tanks @ 31,200 gallons each

Alum=2 tanks @ 26,000 gallons each

4. "Are all of these products offloaded into CCWA owned tanks, correct?"

Answer:

Yes, these products are offloaded into CCWA owned tanks.

5. "Is it at all possible to get this pushed just a few days, with everything going on, it could take a few extra days to get this all taken care of."

Answer:

In the current COVID-19 Pandemic situation CCWA recognizes the need for additional time to complete the bid. CCWA will extend the closing date until April 14, 2020 at 3:00 PM.
